PROFILE

I am a passionate and dedicated Web Developer with a strong focus on building modern, responsive, and user-friendly applications. I enjoy exploring new technologies, especially in AI-assisted development, and continuously improving my skills in both frontend and backend development. I am eager to contribute to impactful projects while growing as a developer and problem solver.

PROJECT EXPERIENCES

PlovDev Platform (Team Project)

- Developed a full-featured e-learning platform with course management and job board functionality
- Implemented role-based access control (Admin, Instructor, Recruitor, Student)
- Built RESTful APIs and handled database integration for scalable data management
- Tech: React, Tailwind CSS, Node.js, PostgreSQL
- Link: [PlovDev](#)

AI Coding Assistant

- Built an AI-powered tool to explain, optimize, and refactor code
- Integrated external AI APIs (Gemini) for enhanced functionality
- Designed a clean and intuitive UI to improve developer experience
- Tech: HTML, CSS, Javascript, API Integration
- Link: [Mini AI Assistant](#)

DevClothes (E-commerce Project)

- Developed a modern e-commerce web application for clothing products
- Implemented product listing, filtering, and shopping cart features
- Designed responsive UI for seamless experience across devices
- Integrated frontend with backend APIs, including payment, Telegram, and email services
- Tech: React, Node.js, Express, PostgreSQL
- Link: [DevClothes](#)

MediTrack (Featured Project)

- Built a medication tracking app prototype using AI-assisted development tools
- Demonstrated rapid prototyping and problem-solving under hackathon constraints
- Developed during an AI Hackathon using prompt engineering in Studio AI
- Tech: Studio AI, Prompt Engineering
- Link: [MediTrack](#)
